GEOSPATIAL EXPLOITATION PRODUCTS®
PLATFORM SOFTWARE LICENSE AGREEMENT

THIS SOFTWARE LICENSE AGREEMENT ("AGREEMENT") APPLIES TO ANY SOFTWARE PRODUCT(S) THAT MAY BE PROVIDED BY BAE SYSTEMS INFORMATION AND ELECTRONIC SYSTEMS INTEGRATION INC. ("LICENSOR") TO YOU ("LICENSEE"), INCLUDING BUT NOT LIMITED TO GXP XPLORER®, SOCET GXP®, SOCET SET®, GXP WEBVIEW®, GXP INMOTION™, GXP INMOTION™ SERVER, GXP JPIP SERVER, GXP OPSVIEW™, GXP XPLORER® DISCONNECTED, TRACKING ANALYTICS SOFTWARE SUITE (TASS) AND IF APPLICABLE (AS SPECIFICALLY IDENTIFIED IN THE APPLICABLE ORDERING DOCUMENT OR CONTRACT) THE GXP XPLORER SERVER TO DIB CONNECTOR (EACH SEPARATELY REFERRED TO BELOW AS "GXP SOFTWARE"). READ THE TERMS AND CONDITIONS OF THIS AGREEMENT CAREFULLY BEFORE (1) OPENING THE PACKAGE OR DOWNLOADING THE FILE CONTAINING THE GXP SOFTWARE, OR (2) CLICKING THE "I ACCEPT" BUTTON. THE GXP SOFTWARE AND THE ACCOMPANYING USER DOCUMENTATION (EACH REFERRED TO AS THE "PROGRAM") ARE COPYRIGHTED AND LICENSED - NOT SOLD. BY OPENING THE SOFTWARE PACKAGE, OR CLICKING "I ACCEPT", YOU ARE ACCEPTING AND AGREEING TO THE TERMS OF THIS AGREEMENT. IF YOU DO NOT ACCEPT THE TERMS AND CONDITIONS OF THIS AGREEMENT PROMPTLY RETURN THE UNOPENED PACKAGE TO THE PARTY FROM WHOM IT WAS ACQUIRED, CANCEL THE DOWNLOAD OR CANCEL THE INSTALLATION. IF YOU ARE A UNITED STATES ("U.S") GOVERNMENT CUSTOMER, ACCEPTANCE OF THESE TERMS ARE EFFECTUATED BY ACCEPTANCE OF A PROPOSAL, QUOTE, OR OTHER ORDERING DOCUMENT OR CONTRACT INCORPORATING THIS AGREEMENT BY REFERENCE OR OTHERWISE OR BY CONTRACTING OFFICER EXECUTION OF THIS AGREEMENT. THIS AGREEMENT REPRESENTS THE ENTIRE AGREEMENT CONCERNING THE LICENSING OF THE PROGRAM BETWEEN LICENSEE AND LICENSOR, AND IT SUPERSEDES AND REPLACES IN ITS ENTIRETY ANY PRIOR PROPOSAL, REPRESENTATION, OR UNDERSTANDING BETWEEN THE PARTIES. THE PARTIES HERETO RECOGNIZE THAT THE FEDERAL GOVERNMENT IS SUBJECT TO STATUTORY RESTRICTIONS REGARDING THIRD PARTY SOFTWARE TERMS AND CONDITIONS (INCLUDING BUT NOT LIMITED TO OPEN SOURCE SOFTWARE), WHICH IT IS PERMITTED TO ACCEPT. ACCORDINGLY, AND NOTWITHSTANDING ANY LANGUAGE TO THE CONTRARY IN THIS AGREEMENT AND/OR IN ANY SOFTWARE LICENSE APPLICABLE TO ANY SOFTWARE DELIVERED HEREUNDER, THE PARTIES HERETO RECOGNIZE THAT THE GOVERNMENT CANNOT, AND DOES NOT, AGREE TO ANY THIRD PARTY SOFTWARE TERMS AND CONDITIONS IDENTIFIED IN APPENDIX A OR INCORPORATED IN THIS AGREEMENT BY REFERENCE, THE ACCEPTANCE OF WHICH WOULD VIOLATE FEDERAL LAW OR ANY STATUTORY CONSTRAINT. IN THE EVENT THE GOVERNMENT OBJECTS TO SUCH TERM(S), THE GOVERNMENT AGREES THAT IT SHALL RETURN THE AFFECTED SOFTWARE UNUSED IN ACCORDANCE WITH ARTICLE 13 (GOVERNMENT ACQUISITIONS) OF THIS AGREEMENT.

1. License Grant

Licensor hereby grants to Licensee a limited, non-exclusive license to use the Program, in machine-readable, object code form on a single computer (Node Locked Licensed version) or on any one networked-computer at one time (Floating Licensed version) only as authorized by this Agreement. Licensee has no right to assign, sublicense, transfer, pledge, lease, rent, or share its rights under the license or this Agreement. Except as and only to the extent expressly permitted by applicable law and Section 15 of this Agreement, Licensee may not copy, decompile, reverse engineer, disassemble, unbundle, modify, or create derivative works of the Program or any part thereof. Licensee may make one (1) copy of the Program in machine-readable form for backup purposes; provided, however, that

Licensee shall reproduce any Licensor or third party copyright, trademark and patent notices on the Program on such backup copy.

1.1. License Type

Perpetual License. A license grant that is not limited in duration, subject to early termination pursuant to this Agreement.

Term License. A license grant that is limited in duration, which duration is as indicated in an order or purchasing document placed by Licensee for the Program ("License Period").

2. Restrictions on Use of Program

Licensee may use the Program in accordance with the terms and conditions set forth in this Agreement. Licensee may use the Program solely for lawful purposes. Licensee may not use the Program in any manner that violates any U.S., international, or foreign laws or regulations or any third party's rights, including copyright, patent, privacy or publicity rights, or other intellectual property rights.

3. Transfer

The Program may be transferred to a computer of like configuration, or the computer on which the Program resides may be transferred to another location of Licensee's organization within the same country in which the computer was located when the Program was originally licensed and installed, so long as such transfer is made in accordance with the U.S. Department of Commerce Export Administration Regulations and Section 4 of this Agreement. In the event Licensee obtains multiple perpetual licenses, but selects to obtain upgrade entitlement(s), as discussed in Section 9, to less than the full amount of its licenses, the Program with upgrade entitlement must be maintained on a different server than the Program license without upgrade entitlement ("License Separation Requirement"). Such server must be for the same organization within the same country in which the computer was located when the Program was originally licensed and installed. Thus a Program transfer to a different server for License Separation Requirement purposes is authorized and may be required, and must be made accordance with the U.S. Department of Commerce Export Administration Regulations and Section 4 of this Agreement.

4. Export Restrictions

Licensee shall comply with all export laws and restrictions and regulations of the United States Department of Commerce, the United States Department of State, the United States Department of Treasury Office of Foreign Assets Control ("OFAC"), or other United States or foreign agency or authority, and not to export, or allow the export or re-export of the Software in violation of any such restrictions, laws or regulations (or any successor supplement or regulations), or the OFAC regulations found at 31 C.F.R. 500 et seq.). By installing or using the Program, Licensee is agreeing to the foregoing and is representing and warranting that it is not located in, under the control of, or a national or resident of any restricted country or on any such list. Licensee shall indemnify and hold Licensor (and its licensors) harmless from and against any liability that may arise from Licensee's failure to comply with all export control laws and regulations. If Licensee is the U.S. Government (defined below), Licensee is not required to indemnify Licensor, but Licensee assumes all risks associated with its failure to comply with any export control laws or regulations, if applicable. Any

transfer of the Program outside the country of initial installation shall be permitted only with Licensor's prior written consent.

5. Term; Termination

5.1. Perpetual License

The term of this Agreement for a Perpetual License will continue unless and until terminated in accordance with the provisions hereof.

5.2. Term Licenses

The term of this Agreement for a Term License will continue for the License Period unless and until terminated in accordance with the provisions hereof.

5.3. Termination

Licensee may terminate this Agreement at any time by returning the Program and all copies to Licensor or by deleting the Program and providing Licensor certification of Program deletion to the following address: BAE Systems Information and Electronic Systems Integration Inc, 10920 Technology Place, San Diego, CA 92127, Attention: GXP Customer Support Manager. Licensor may terminate this License Agreement if, in the Licensor's sole discretion, (a) the Licensee is in breach of any provision of this Agreement; (b) Licensor determines it will no longer license or support the Program; or (c) the Program becomes or in Licensor's opinion is likely to become, the subject of a claim of infringement of any intellectual property right. In addition, if Licensee is the U.S. Government, Licensor may terminate this Agreement if Licensee breaches this Agreement, provided that such relief is granted to Licensor after following the dispute resolution process of FAR 52.233-1 (Disputes). Upon termination of this Agreement, Licensee shall, as directed by Licensor at its sole option, return or destroy all copies of the Program. Neither termination by Licensee, nor termination by Licensor for breach, shall entitle Licensee to a refund of any portion of the Licensee fee.

6. Limited Warranty

6.1. Media Warranty

For ninety (90) calendar days from the date of shipment (the "Warranty Period"), Licensor warrants the media on which the Program is contained will be free from defects in materials and workmanship. During the Warranty Period, Licensee may return the defective media to Licensor and it will be replaced without charge. Replacement of media is Licensee's sole remedy in the event of a media defect.

6.2. Program Warranty

Licensor warrants that the Program shall substantially perform as described in its user's manual, as it exists on the date of delivery, during the Warranty Period. This warranty is void where Licensee's use is unauthorized, in breach of this Agreement, or where non-conformity is related to inaccurate or incorrect Licensee data. Licensor's sole obligation under this warranty shall be limited to using reasonable efforts to correct any reported defects and to supply a corrected

version as soon as reasonable after being notified of such defects. Licensor does NOT warrant that (a) the operation of the Program shall be uninterrupted or error-free; or (b) the functions contained in the Program shall operate in all combinations or sequences; or (c) the Program shall meet Licensee's requirements; or (d) that defects for which there is a reasonable work-around procedure will be corrected.

6.3. Disclaimer of Warranties

LICENSEE EXPRESSLY ACKNOWLEDGES AND AGREES THAT USE OF THE PROGRAM AND DATA IS AT ITS SOLE RISK. EXCEPT FOR THE LIMITED WARRANTY SET FORTH ABOVE AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM, DATA AND SUPPORT SERVICES (IF ANY) ARE PROVIDED "AS IS," WITH ANY AND ALL FAULTS AND WITHOUT WARRANTY OF ANY KIND. EXCEPT FOR THE EXPRESS WARRANTIES STATED ABOVE, LICENSOR AND ITS LICENSORS HEREBY DISCLAIM ALL WARRANTIES AND CONDITIONS WITH RESPECT TO THE PROGRAM, DATA AND SUPPORT SERVICES (IF ANY), EITHER EXPRESS OR IMPLIED OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES AND/OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY, AND NON-INFRINGEMENT OF THIRD PARTY RIGHTS. LICENSOR DOES NOT WARRANT THAT THE PROGRAM, DATA AND SUPPORT SERVICES (IF ANY), ARE ERROR-FREE OR WILL BE UNINTERRUPTED, FREE FROM SPYWARE, MALWARE, ADWARE, VIRUSES, WORMS OR OTHER MALICIOUS CODE, OR WILL FUNCTION TO MEET LICENSEE'S REQUIREMENTS. FURTHER, LICENSOR MAKES NO WARRANTIES OF ANY KIND WITH RESPECT TO ANY THIRD PARTY SOFTWARE INCLUDED WITH THE PROGRAM. LICENSEE MAKES NO REPRESENTATIONS OR WARRANTIES REGARDING ANY CLOUD SERVICE PROVIDER SERVICES OR OFFERINGS. THIS CLAUSE SHALL SURVIVE TERMINATION OR EXPIRATION OF THIS AGREEMENT.

7. Limitation of Liability

TO THE EXTENT NOT PROHIBITED BY LAW, IN NO EVENT SHALL LICENSOR OR ITS LICENSORS BE LIABLE UNDER ANY LEGAL THEORY FOR ANY DAMAGES, INCLUDING, BUT NOT LIMITED TO, ANY DIRECT, INDIRECT, SPECIAL, PUNITIVE, INCIDENTAL OR CONSEQUENTIAL DAMAGES WHATSOEVER, INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF PROFITS, LOSS OF DATA, LOSS OF PRIVACY, DENIALS OF SERVICE (INCLUDING COMPUTER CRASHES), BUSINESS INTERRUPTION OR ANY OTHER COMMERCIAL DAMAGES OR LOSSES, ARISING OUT OF OR RELATED TO LICENSEE'S USE OR INABILITY TO USE THE PROGRAM AND/OR DATA, HOWEVER CAUSED, REGARDLESS OF THE THEORY OF LIABILITY (CONTRACT, TORT, OR OTHERWISE), EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. "LICENSORS" SPECIFICALLY INCLUDES ANY CLOUD SERVICE PROVIDER (CSP) IF YOUR SOFTWARE WAS PURCHASED FROM A CSP MARKETPLACE. NOTWITHSTANDING, IN NO EVENT SHALL DAMAGES EXCEED THE LICENSE FEE PAID. THIS CLAUSE SHALL SURVIVE TERMINATION OR EXPIRATION OF THIS AGREEMENT.

8. Indemnity

LICENSEE AGREES TO INDEMNIFY AND HOLD LICENSOR AND ITS AFFILIATES HARMLESS FROM ANY CLAIMS, PROCEEDINGS, DAMAGES, COSTS, AND EXPENSES ARISING OR RESULTING FROM (a) LICENSEE'S USE OF THE PROGRAM FOR ANY ILLEGAL PURPOSE, OR ANY USE NOT AUTHORIZED BY THIS AGREEMENT OR IN BREACH OF THIS AGREEMENT OR (b) INACCURATE OR INCORRECT LICENSEE DATA. IF LICENSEE IS THE

U.S GOVERNMENT (DEFINED BELOW), THE FOREGOING INDEMNITY CLAUSE IS REPLACED AS FOLLOWS: NOTHING IN THIS AGREEMENT SHALL BE CONSTRUED AS REQURING THE U.S. GOVERNMENT TO INDEMNIFY LICENSOR. LICENSEE, HOWEVER, AGREES THAT IT IS SOLELY RESPONSIBLE FOR ITS USE OF THE PROGRAM AND ASSUMES ALL RISKS ARISING FROM SAME, INCLUDING BUT NOT LIMITED TO CLAIMS, PROCEEDINGS, DAMAGES, COSTS AND EXPENSES ARISING OR RESULTING FROM USE OF THE PROGRAM FOR ANY ILLEGAL PURPOSES OR ANY USE IN BREACH OF OR NOT AUTHORIZED IN THIS AGREEMENT.

9. Support

Licensor shall have no obligation under this Agreement to support the Program after the expiration of the Warranty Period. Any Licensor support of the Program after the expiration of the Warranty Period shall be the subject of a separate written upgrade entitlement agreement between the parties.

Note: Upgrade entitlement grants Licensee only the right to upgrade the existing Program and not to install the upgrade Program on a second computer while continuing to operate the earlier version on the computer in which originally installed. Licensee shall not install the Program update(s) on another computer while continuing to operate the earlier version on the computer in which originally installed. If Licensee wishes to run the upgraded Program on another computer, while continuing to run earlier versions on other computers, Licensee must purchase a new license.

10. Reservation

Licensor reserves all rights not expressly granted to Licensee in this Agreement. Licensor retains all title, interest and ownership of all intellectual property rights in and to the Program and accompanying documentation, including, but not limited to, all copyright and rights and interests of every kind or nature in and to all works based upon, incorporated in, derived from, incorporating or relating to the Program and documentation or from which the Program and documentation are derived, as well as the right to exploit any of the foregoing in all media and by any manner and means now known or hereafter devised, throughout the universe, in perpetuity. This clause shall survive termination or expiration of this Agreement.

11. Privacy

During registration or use of the Program, information about Licensee and Licensee's computer may be collected. By installing the Program, Licensee consents to the collection and processing of information about Licensee and Licensee's computer.

12. Updates

Use of the Program may require periodic checking for software updates over the Internet. By use of the Program, Licensee consents to such periodic checking, unless Licensee's environment is a closed environment or operates under heightened security requirements where remote checking is not possible. In such event, Licensee and Licensor shall mutually agree on a delivery mechanism for

providing updates which may include, by way of example only and without limitation, DVD or other media delivery. No updates will be installed without Licensee's prior consent.

13. Government Acquisitions

This provision applies to all acquisitions of the Program by or a federal agency, department, branch, commission, board, office, council, authority, or other federal entity of the United States of America (the "U.S. Government"). The U.S. Government hereby agrees that the Program qualifies as "commercial" computer software within the meaning of FAR Part 12.212 (2012), DFARS Part 227.7202-1 (2014), and DFARS 252.227-7014(a) (2014). The terms and conditions of this Agreement shall pertain to the U.S. Government's use and disclosure of the Program, and shall supersede any conflicting contractual terms or conditions. If this Agreement fails to meet the Government's minimum needs or is inconsistent in any respect with Federal procurement law, the Government agrees to return the Program unused to the party from whom it was acquired. The U.S. Government further authorizes and consents, pursuant to FAR Part 52.227-1 (1995), to all use and manufacture, in creation and operation of the Program, of any invention described in and covered by a United States patent.

14. Educational Use License

If Licensee acquires the Program pursuant to an Educational Use as defined below, such Educational Use is subject to an Educational Use License that has the following additional terms.

14.1. Definitions

"Educational Use" means one or more of the following: (a) an education price is charged by Licensor and paid by Licensee for the Program and documentation; (b) the Program and documentation is received by virtue of Licensee's participation in a Licensor program designated as designed for educational or research institutions; or (c) the Program and documentation is provided by Licensor to Licensee under some other arrangement expressly designated for educational use. "Educational Use License" means a license granted under this Agreement to Licensee for an Educational Use.

14.2. Licensee shall have all the rights under this Agreement as a single-use Floating License except that the computer on which the Program is installed and used shall be a desktop computer in a university lab.

14.3. Licensee represents and warrants that Licensee is an employee or student of the educational institution where the Program is to be installed and used.

14.4. Program and documentation licensed pursuant to an Educational Use License shall be used for educational and research purposes only.

14.5. Commercial and general production use of Program, or documentation licensed pursuant to an Educational Use License are specifically prohibited.

14.6. The duration of the Educational Use License is one (1) year, from the date on which the Program license keys are made available to Licensee, unless otherwise agreed upon in writing by Licensee.

14.7. An Educational Use License entitles Licensee to email and telephone support for up to two (2) designated employees and Program upgrades during the term of Licensee's Educational Use License.

14.8. Licensee grants Licensor the right to use any material created by Licensee related to the Program or documentation for marketing, advertising or other similar purposes.

15. Incorporated Third Party Software

15.1. The version of the Program you are receiving incorporates third parties' software under licenses from such third parties ("Third Party Software"). Certain Third Party Software is subject to such additional terms and conditions as noted in Appendix A and such third parties are third-party beneficiaries under this Agreement. Further, other Third Party Software licenses incorporated into the Program may require Licensee's agreement to further terms and conditions. When required by the terms and conditions of each Third Party Software license, license information is provided in Appendix A and/or the license is made available at <DVD drive>:\Documentation\Third-Party-Software-Licenses. Browse to this location and select the desired license agreement(s). Notwithstanding the license grant in Section 1, and to the extent required by the licenses governing the Third Party Software, the terms of such licenses will apply in lieu of the terms of this Agreement. Further, to the extent that the terms of such licenses prohibit any of the restrictions in this Agreement with respect to such Third Party Software, such restrictions shall not apply to such Third Party Software. Notwithstanding anything to the contrary contained in the Third Party Software licenses, the disclaimer of warranties (Section 6.3) and the limitation of liability (Section 7) provisions in this License Agreement shall apply to such Third Party Software.

15.2. The Licensee hereby represents and warrants that it shall not redistribute, modify, alter, or create derivative works from the Program; and shall only use the Program for lawful purposes as restricted by this Agreement. The parties hereby agree that as long as Licensee complies with the restrictions of this Agreement, certain provisions of those "copyleft" open source/third party software licenses that may cover components of the Program shall not apply. Notwithstanding the foregoing, if Licensee acts outside the scope of this Agreement and the Program restrictions and the Program is not utilized in a manner as restricted by this Agreement, the Licensee cannot assure that certain copyleft license provisions will not be triggered by the Licensee's actions.

16. General

16.1. Licensee is responsible for installation and operation of the Program.

16.2. This Agreement shall be governed by and interpreted in accordance with (a) Federal law of the United States, if Licensee is the U.S. Government or (b) the laws of the State of California, without reference to conflict of law principles of the State of California, for all other Licensees other than the U.S. Government. All disputes or actions arising out of this Agreement shall be subject to the jurisdiction of (a) the United States federal courts if Licensee is the U.S. Government or (b) the California state courts (or if there is exclusive federal jurisdiction, the United States District Courts) in counties of Southern California if Licensee is not the U.S. Government. To the extent permitted by law, the Licensee and

Licensor agree and submit to the personal and exclusive jurisdiction and venue of the applicable courts identified hereunder.

16.3. Failure or neglect by Licensor to enforce at any time any of its rights or remedies shall not be deemed a waiver of its rights or remedies nor prejudice Licensor's rights to take subsequent action.

16.4. In the event any of these terms are determined to be invalid or unenforceable to any extent, such term shall be severed from the remaining terms, which shall continue to be valid to the fullest extent permitted by law.

16.5. Licensee is responsible for payment of all taxes associated with this transaction. Licensor shall state separately on its invoices taxes excluded from the contract price, and the Licensee agrees either to pay the amount of the taxes (based on the current value of the Program) to the Licensor or provide evidence necessary to sustain an exemption, in accordance with FAR 52.229-1 and FAR 52.229-3.

16.6. Licensee acknowledges and agrees that no license, right or interest is granted to use the names, trade names or trademarks "BAE SYSTEMS", "GXP", "SOCET GXP", "GXP Xplorer", "Geospatial eXploitation Products", "SOCET SET", "SOCET Services", "GXP WebView", "GXP InMotion", "GXP InMotion Server", "GXP Xplorer® Disconnected" or any other trade name or trademark, or portion of any of them, owned by or licensed for use by Licensor or any parent, or subsidiary or other company with whom Licensor is affiliated for any purpose whatsoever other than reproduction of such trademarks on permitted backup or archive copies of the Program.

16.7. This Agreement applies to updates, supplements, add-on components, or Internet-based services components, of the Program that Licensor may provide to Licensee or make available to Licensee after the date Licensee obtains its initial copy of the Program, unless Licensor provides other terms along with the update, supplement, add-on component, or Internet-based services component.

16.8. The relationship between Licensee and Licensor (and Licensor's third party licensors and suppliers) shall be that of independent contractors. Neither party will represent that it has any authority to assume or create any obligation, express or implied, on behalf of the other party, nor to represent the other party as agent, employee, franchisee, or in any other capacity.

16.9. Except as otherwise provided herein, this Agreement may be amended only by a subsequent writing signed by the parties to this Agreement, and no other act, document, usage, or custom shall be deemed to amend this Agreement.

Eclipse Public License - v 1.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS
"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and
b) in the case of each subsequent Contributor:

i) changes to the Program, and

ii) additions to the Program;

where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and

b) its license agreement:

i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;

ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and

b) a copy of this Agreement must be included with each copy of the Program.

Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement , including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

This Program includes the following software licensed under the terms of the Eclipse Public License Version 2.0.

- Jersey Client [versions 2.35]
- Jersey HK2 [version 2.35]

Eclipse Public License - v 2.0

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS
"Contribution" means:

a) in the case of the initial Contributor, the initial content Distributed under this Agreement, and
b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;

where such changes and/or additions to the Program originate from and are Distributed by that particular Contributor. A Contribution "originates" from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include changes or additions to the Program that are not Modified Works.
"Contributor" means any person or entity that Distributes the Program.

"Licensed Patents" mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions Distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement or any Secondary License (as applicable), including Contributors.

"Derivative Works" shall mean any work, whether in Source Code or other form, that is based on (or derived from) the Program and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship.

"Modified Works" shall mean any work in Source Code or other form that results from an addition to, deletion from, or modification of the contents of the Program, including, for purposes of clarity any new file in Source Code form that contains any contents of the Program. Modified Works shall not include works that contain only declarations, interfaces, types, classes, structures, or files of the Program solely in each case in order to link to, bind by name, or subclass the Program or Modified Works thereof.

"Distribute" means the acts of a) distributing or b) making available in any manner that enables the transfer of a copy.

"Source Code" means the form of a Program preferred for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Secondary License" means either the GNU General Public License, Version 2.0, or any later versions of that license, including any exceptions or additional permissions as identified by the initial Contributor.

2. GRANT OF RIGHTS
a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, Distribute and sublicense the Contribution of such Contributor, if any, and such Derivative Works.
b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in Source Code or other form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.
c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to Distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.
d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.
e) Notwithstanding the terms of any Secondary License, no Contributor makes additional grants to any Recipient (other than those set forth in this Agreement) as a result of such Recipient's receipt of the Program under the terms of a Secondary License (if permitted under the terms of Section 3).
3. REQUIREMENTS
3.1 If a Contributor Distributes the Program in any form, then:

a) the Program must also be made available as Source Code, in accordance with section 3.2, and the Contributor must accompany the Program with a statement that the Source Code for the Program is available under this Agreement, and informs Recipients how to obtain it in a reasonable manner on or through a medium customarily used for software exchange; and
b) the Contributor may Distribute the Program under a license different than this Agreement, provided that such license:
i) effectively disclaims on behalf of all other Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;
ii) effectively excludes on behalf of all other Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;
iii) does not attempt to limit or alter the recipients' rights in the Source Code under section 3.2; and
iv) requires any subsequent distribution of the Program by any party to be under a license that satisfies the requirements of this section 3.
3.2 When the Program is Distributed as Source Code:

a) it must be made available under this Agreement, or if the Program (i) is combined with other material in a separate file or files made available under a Secondary License, and (ii) the initial Contributor attached to the Source Code the notice described in Exhibit A of this Agreement, then the Program may be made available under the terms of such Secondary Licenses, and
b) a copy of this Agreement must be included with each copy of the Program.
3.3 Contributors may not remove or alter any copyright, patent, trademark, attribution notices, disclaimers of warranty, or limitations of liability ('notices') contained within the Program from any copy of the Program which they Distribute, provided that Contributors may add their own appropriate notices.

4. COMMERCIAL DISTRIBUTION
Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY
EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL
If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be Distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to Distribute the Program (including its Contributions) under the new version.

Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved. Nothing in this Agreement is intended to be enforceable by any entity that is not a Contributor or Recipient. No third-party beneficiary rights are created under this Agreement.

Exhibit A – Form of Secondary Licenses Notice
"This Source Code may also be made available under the following Secondary Licenses when the conditions for such availability set forth in the Eclipse Public License, v. 2.0 are satisfied: {name license(s), version(s), and exceptions or additional permissions here}."

Simply including a copy of this Agreement, including this Exhibit A is not sufficient to license the Source Code under Secondary Licenses.

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice.

You may add additional accurate notices of copyright ownership.

GNU LESSER GENERAL PUBLIC LICENSE

Version 3, 29 June 2007

Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

0. Additional Definitions.

As used herein, "this License" refers to version 3 of the GNU Lesser General Public License, and the "GNU GPL" refers to version 3 of the GNU General Public License.

"The Library" refers to a covered work governed by this License, other than an Application or a Combined Work as defined below.

An "Application" is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library.

A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version".

The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:

- a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or
- b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:

- a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the object code with a copy of the GNU GPL and this license document.

4. Combined Works.

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

- a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the Combined Work with a copy of the GNU GPL and this license document.
- c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.
- d) Do one of the following:
    - 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.
    - 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.
- e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:

- a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
- b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.

The GNU Lesser General Public License Version 3.0 is available at the website identified in Section 15 of this Agreement. Software distributed under the license is distributed on an "AS IS" basis, WITHOUT WARRANTY OF ANY KIND, either express or implied. The source code for the software identified above may be obtained by contacting BAE Systems Information and Electronic Systems Integration Inc. at the address on your order form. Portions of this Program were developed using the Intel Math Kernel Library (MKL) [version 2019 Update 5].

Intel® Math Kernel Library (Intel® MKL) is a library of highly optimized, extensively threaded math routines for science, engineering, and financial applications that require maximum performance. Core math functions include BLAS, LAPACK, ScaLAPACK, Sparse Solvers, Fast Fourier Transforms, Vector Math, and more. Offering performance optimizations for current and next-generation Intel® processors, it includes improved integration with Microsoft Visual Studio*, Eclipse*, and XCode*. Intel MKL allows for full integration of the Intel Compatibility OpenMP* run-time library for greater Windows*/Linux* cross-platform compatibility.

Use of the Data

The user assumes the entire risk as to the accuracy and the use of this data. The data may be used, copied and distributed subject to the following conditions:

1. INFORMATION PROVIDED IN THIS DOCUMENT IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE.
2. The data may be included in any commercial package provided that any commerciality is based on value added by the provider and not on a value ascribed to the EPSG dataset which is made available at no charge. The ownership of the EPSG dataset [OGP] must be acknowledged.
3. Subsets of information may be extracted from the dataset. Users are advised that coordinate reference system and coordinate transformation descriptions are incomplete unless all elements detailed as essential in OGP Surveying and Positioning Guidance Note 7-1 annex F are included.
4. Essential elements should preferably be reproduced as described in the dataset. Modification of parameter values is permitted as described in the table below to allow change to the content of the information provided that numeric equivalence is achieved. Numeric equivalence refers to the results of geodetic calculations in which the parameters are used, for example (i) conversion of ellipsoid defining parameters, or (ii) conversion of parameters between one and two standard parallel projection methods, or (iii) conversion of parameters between 7-parameter geocentric transformation methods.
5. No data that has been modified other than as permitted in these terms and conditions shall be described as or attributed to the EPSG dataset.

GNU LESSER GENERAL PUBLIC LICENSE

Version 3, 29 June 2007

Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

0. Additional Definitions.

As used herein, "this License" refers to version 3 of the GNU Lesser General Public License, and the "GNU GPL" refers to version 3 of the GNU General Public License.

"The Library" refers to a covered work governed by this License, other than an Application or a Combined Work as defined below.

An "Application" is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library.

A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version".

The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:

- a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or
- b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:

- a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the object code with a copy of the GNU GPL and this license document.

4. Combined Works.

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

- a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the Combined Work with a copy of the GNU GPL and this license document.

- c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.
- d) Do one of the following:
    - 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.
    - 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.
- e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:

- a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
- b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.

The GNU Lesser General Public License Version 3.0 is available at the website identified in Section 15 of this Agreement. Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.
