

Industrial Intelligence through GXP Xplorer®

Up-to-date industrial asset intelligence on facilities and projects for rapid situational and activity assessment.
Powered by Industrial Info Resources (IIR).

Essential to the security, intelligence, and first responder communities, Industrial Intelligence data from GXP® delivers information on a wide variety of industrial plants and critical infrastructure worldwide. This dataset represents human-collected information acquired over decades from vital industries including energy, materials, chemicals, manufacturing, pharmaceuticals, bio-tech, food and beverage, and supporting infrastructure.

Updated daily, the Industrial Intelligence add-on for our GXP Xplorer® data management solution provides analysts with timely industrial facility data such as size, capacity, functional and capability details, maintenance, outages and readiness, resource consumption, output metrics, and personnel occupancy. This information can be visualized as searchable, attributed, geocoded data points in a table or overlaid on a map or image, enabling analysts to rapidly assess asset utilization, risk, and vulnerability, all without leaving the image under analysis.

Industrial Intelligence data is constantly updated by a staff of 500 researchers across the globe speaking 56 languages that revalidate and capture new activities and capital projects on a regular basis, including those with low-to-no media visibility. The information can be used to identify investments, expansion and contraction, on-hold and reignited projects, and industry evolution.

With industrial data readily available in the GXP Xplorer user interface, stakeholders from defense personnel to first responders will realize reduced intelligence cycles and enhanced situational assessments as industrial assets are seamlessly augmented with accurate descriptions, notations, and tags.

Industrial plants and construction projects from across the globe are grouped and available through Industrial Intelligence in twelve distinct categories.

Power

- » Electric Power

Energy

- » Terminals
- » Pipelines
- » Production
- » Alternative Fuels
- » Petroleum Refining

Industrial Infrastructure

- » Chemical Processing
- » Metals and Minerals
- » Pulp, Paper, and Wood
- » Food and Beverage
- » Industrial Manufacturing
- » Pharmaceutical and Biotech

Company Name	Plant Name	Startup Date	Plant Status	Industry	Employees
Carroll Foods LLC	Carroll 01	1990-01-01 00:00:00	Closed	Food & Beverage	75
Worlée Milling	Production and Distribution	1960-01-01 00:00:00	Closed	Food & Beverage	100
Lybka Paper	Westwood 10	1970-01-01 00:00:00	Closed	Food & Beverage	20
Sarkis Paper	Power Plant 04		Closed	Industrial Manufacturing	10
Power Programs	Generator 27	1975-01-01 00:00:00	Closed	Power	2
Gen West	1960-01-01 00:00:00	1960-01-01 00:00:00	Closed	Power	1
Compass PART 07	West	1972-06-01 00:00:00	Closed	Power	1
Lonmin	South Energy	2000-01-01 00:00:00	Closed	Food & Beverage	100
Water Plant Distributor	Quality Assurance	2000-01-01 00:00:00	Operational	Power	0
Powell	Power Plant	2000-01-01 00:00:00	Operational	Power	0
Power LTD	Water and Sewer Wastewater	2015-12-01 00:00:00	Cancelled	Power	20
Water and Sewer Wastewater	Storage and Distribution	1975-01-01 00:00:00	Closed	Industrial Manufacturing	100
Apex Tex	Westwood	1999-02-01 12:30:00	Operational	Power	0
Beckwith	Railway #1	2000-06-01 00:00:00	Operational	Industrial Manufacturing	10
Dairy Ops & Plants	Westwood	1999-06-01 00:00:00	Operational	Industrial Manufacturing	1
Westwood	Quality Assurance	1999-06-01 00:00:00	Operational	Power	0
Lincoln LLC	Northwest West	2000-01-01 00:00:00	Operational	Power	0
Westwood	Westwood	2000-01-01 00:00:00	Operational	Power	0
Power Tex	Power Plant	2014-06-14 00:00:00	Operational	Industrial Manufacturing	10
Reson Materials LTD	Distribution	2015-08-22 00:00:00	Closed	Industrial Manufacturing	45

Industrial Intelligence from GXP delivers a wide variety of information regarding factories and critical infrastructure including:

- » Facility owner/operator
- » Ultimate parent owner
- » Output product description
- » Employee count
- » Shifts per day
- » Fuel type
- » Operational status
- » Outages
- » Maintenance
- » Energy needs
- » Investment amount
- » Feed/Output capacities
- » Key equipment
- » Environmental air/land/water factors
- » Construction probability
- » Construction kickoff/slippage

All data is delivered to GXP Xplorer by import from disc or via plug-in access to an IIR data server.
